ANACONDA ARCHITECTURAL BRONZE

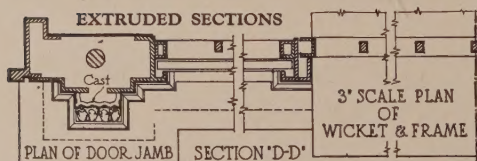

Extruded or Drawn Shapes and Mouldings

Bank Screen for Astor Trust Co., New York City, Charles E. Birge, Architect. Fabricated by the Gorham Co., Architectural Bronze Department, from extruded mouldings and shapes manufactured by The American Brass Company.

1/2' SCALE ELEVATION OF COUNTER SCREEN & DOOR

ANACONDA Bronze Shapes are especially suited for counter screens, doors, elevator enclosures and for interior and exterior metal trimmings in general.

Prominent manufacturers of ornamental construction who use Anaconda Shapes:

Art Metal Construction Co., Jamestown, N. Y.
 Baldwin Brass Works, Chicago, Ill.
 Albert E. Coleman, Chicago, Ill.
 Flour City Ornamental Iron Co., Minneapolis, Minn.
 Gorham Mfg. Company, Providence, R. I.
 J. S. Heath Company, Waukegan, Ill.
 Hecla Iron Works, Brooklyn, N. Y.
 Howell, Field & Goddard, Inc., Long Island City, N. Y.
 William H. Jackson Company, Brooklyn, N. Y.
 Liberty Architectural Bronze Works, Brooklyn, N. Y.
 David Lupton Sons Company, Philadelphia, Pa.
 Michaels Art Bronze Company, Covington, Ky.
 National Bronze Corporation, New York, N. Y.
 Penn Brass & Bronze Works, Brooklyn, N. Y.
 John Polachek Bronze & Iron Co., Long Island City, N. Y.
 Reliance Fire-proof Door Co., Brooklyn, N. Y.
 Tiffany Studios, Corona, L. I., N. Y.
 W. S. Tyler Company, Cleveland, Ohio
 Van Doorn Company, Quincy, Ill.
 Wisconsin Iron & Wire Works, Milwaukee, Wis.
 Canadian Gen. Elec. Arch. Bronze & Iron Works,
 Toronto, Ont., Can.
 Dennis Iron & Wire Works, London, Ont., Can.
 Robert Mitchell Company, Montreal, Quebec, Can.

The Technical Department of The American Brass Company will be pleased to cooperate with architects who are contemplating the use of ornamental bronze.

Typical Anaconda Brass Pipe Service

TWENTY-TWO years ago brass pipe, manufactured by The American Brass Company, was installed for the hot water lines in the residence of Mr. George Remick, 14 Rice Street, Newton Center, Mass. It is still giving perfect service.

At the same time iron pipe was installed for the cold water lines. Rust deposits gradually reduced the flow of water until, after five years of questionable service, it became necessary to rip out the iron pipe at considerable trouble and expense.

Brass pipe, manufactured by The American Brass Company, was used to replace the rust-filled iron pipe. The brass pipe has been in service seventeen years and is now functioning as perfectly as when first installed.

Anaconda Brass Pipe is real insurance against rust and its attendant plumbing bills. The slightly higher cost is many times offset because maintenance expense is eliminated.

Send for Bulletin which describes in detail the many advantages of using Anaconda Brass Pipe for water service lines.

ANACONDA BRASS PIPE

Excelsior Savings Bank, New York
Architect: Randolph H. Almirotty
Plumbing Contractor: Edward J. McCabe Co., Inc.

The Excelsior Savings Bank is only one of the many fine structures, ranging from city and suburban residences to libraries, hotels and public buildings, in which Anaconda Guaranteed Brass Pipe has been installed.

The difference in cost between corrosion-resisting Anaconda Guaranteed Brass Pipe and corrodible pipe is many times offset by the elimination of maintenance expense, reduced annual depreciation charges, and increased comfort and convenience for tenants.

Anaconda Brass Pipe

to reduce maintenance costs—

*From a sketch by
Samuel Chamberlin*

*Nine story apartment house at 10 East 88th
Street, New York, completely equipped with Ana-
conda Brass Pipe. Architects: Litchfield and
Rogers. Plumbing Contractors: W. G. Cornell
and Co. Owners: The Alma's Corporation.*

BY specifying Anaconda Brass Pipe for the water service lines in the nine story apartment house at 10 East 88th Street, New York, Messrs. Litchfield and Rogers, Architects, made certain that the plumbing would be as permanent as the building.

According to W. G. Cornell and Company of New York, the plumbing contractors, it cost only \$2,800 more to install Anaconda Brass Pipe than corrodible pipe. Six per cent of the total plumbing cost spent for brass pipe assures permanency and complete freedom from rusty water annoyance, expensive repairs and replacements—a small price for plumbing insurance.

Anaconda Brass Pipe is trade-marked and guaranteed. Specify it by name. It costs no more than ordinary brass pipe.

Anaconda Brass Pipe *always justifies its selection*

WHEN the McCreery Department Store of Pittsburgh, Pa., was built over eighteen years ago, it was decided to use brass pipe manufactured by The American Brass Company for the concealed work of the sprinkler system.

Eighteen years of uninterrupted service has justified the decision. The corrosion-resisting brass pipe is still in place and reveals no sign of deterioration. Maintenance charges have been entirely eliminated.

The architect who specifies Anaconda Guaranteed Brass Pipe protects his client against plumbing maintenance charges—an important consideration in planning present-day buildings.

Write for bulletin "Brass Pipe for Water Service." It gives valuable information on plumbing and comparative costs.

Brass Pipe with this trademark stamped in the metal is guaranteed by The American Brass Company

THE AMERICAN BRASS COMPANY

General Offices: Waterbury, Conn.

Offices and Agencies in the principal cities

In Canada: ANACONDA AMERICAN BRASS LIMITED, New Toronto, Ontario
